## EXTRACURRICULAR

### SHELLHACKS HACKATHON

September 2021

Planned and created a time management app in Python as part of a team, all within 36 hours.

### ID CODING & AI ACADEMY SUMMER CAMP

University of Miami | Summer 2019

Intro to AI & Machine Learning w/ Python class where I learned the basics of Tensor Flow.

### ID TECH CAMPS

University of Miami | Summer 2019

Cybersecurity Lab where I learned about encryption.

## HARD SKILLS

Python

C

Java

Data Structures  
& Algorithms

SCRUM

Git

Shell & SSH

APIs

Linux

## NOTABLE PROJECTS: MORE ON GITHUB & PORTFOLIO

### MINESWEEPER-SOLVER

Minesweeper-Solver is an ever-changing project dedicated to building the most near-perfect Minesweeper bot.

### SPOTIFY TREES

SpotifyTrees is a tool written in Python that leverages the Spotify API to help organize complex Spotify libraries.

### KRONOS

Time management app created in Python as part of a team for ShellHacks, planned and developed all within 36 hours.

### INSOMNIAC

Discord bot developed over a few years as a learning experience. Allowed me to grow a ton with programming.
